NEWSLETTER – SPRING 2015

This newsletter turns our focus from the vessels, paraments and banners to the actual organization of the workings of an Altar Guild. Many of our guilds are fortunate to have members that have served for years and therefore perform their duties without much thought to questions a new member might have, or guidance a new officer would need. What would happen, if a leader of your guild was suddenly taken from you or incapacitated? Would someone be able to quickly step in and continue our service to the Lord and your congregation?

PREPAREDNESS is helpful-knowledge of the everyday workings of an Altar Guild that can make everyone's tasks easier and will make transitions more effective. We recommend that each guild document their organizational procedures, considering the suggestions listed below. A folder containing this kind of information would be invaluable for those tasks and transitions.

If you see an area that is incomplete or missing, we would welcome hints or suggestions you could provide. We could include these in future newsletters. Send your thoughts to our email address: altarguilds@wflag.org.
